Die FST Industrie GmbH

Fertigungs-, Service- und Technologiegesellschaft für die Industrie mbH

Efficient constructions, high-quality products, reliable solutions

Sophisticated technologies call for highly specialized industrial services. FST Industrie GmbH is a specialist provider for the project planning, construction and manufacture of intricate systems, e.g. re-cooling units and inverter systems.

30 years of experience in the fields of energy and industry

Three decades of manufacturing services for our discerning customers (such as Siemens AG, for example) do not go by without making their mark on an industrial services company: FST Industrie GmbH represents top quality and competence. National and international plant manufacturing projects realized together with our customers make us a reliable partner with a high degree of flexibility.

Practice-oriented solutions to meet a wide range of requirements

The portfolio of FST Industrie GmbH also includes the manufacture of devices and components where the requirements regarding quality and testing are strict, e.g. for power transmission, power distribution, power generation and large-scale drive systems, as well as the manufacture of a very wide range of special products for the processing industry, mining, rail engineering and process engineering.
