Die FST Industrie GmbH
Fertigungs-, Service- und Technologiegesellschaft für die Industrie mbH

Efficient constructions, high-quality products, reliable solutions

Sophisticated technologies call for highly specialized industrial services. FST Industrie GmbH is a specialist provider for the project planning, construction and manufacture of intricate systems, e.g. re-cooling units and inverter systems.

30 years of experience in the fields of energy and industry

Three decades of manufacturing services for our discerning customers (such as Siemens AG, for example) do not go by without making their mark on an industrial services company: FST Industrie GmbH represents top quality and competence. National and international plant manufacturing projects realized together with our customers make us a reliable partner with a high degree of flexibility.

Practice-oriented solutions to meet a wide range of requirements

The portfolio of FST Industrie GmbH also includes the manufacture of devices and components where the requirements regarding quality and testing are strict, e.g. for power transmission, power distribution, power generation and large-scale drive systems, as well as the manufacture of a very wide range of special products for the processing industry, mining, rail engineering and process engineering.

Complete solutions for industrial customers in Germany and abroad

Power generation
Power distribution
Mechanical engineering and plant manufacturing
Chemical industry
Transport technology
Power transmission
Large-scale drive system manufacturers
Petrochemistry
Mining
And many more

TECHNOLOGY IS OUR PASSION

FST
INDUSTRIE

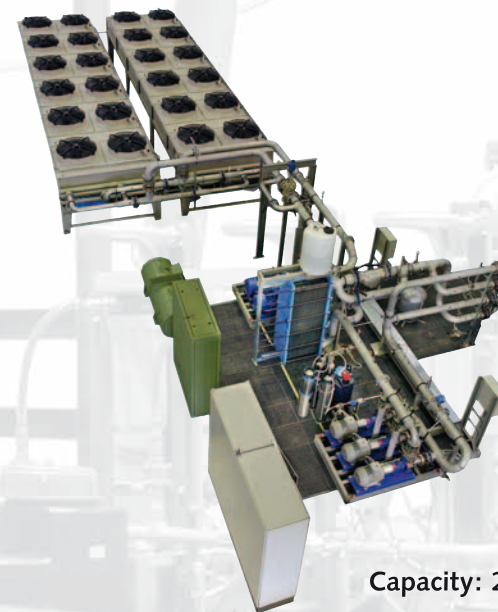

Re-cooling units

Design, construction and assembly

FST Industrie GmbH specializes in effective and dependable re-cooling units for efficient heat dissipation in industrial applications. We manufacture customized cooling units, which are technically and economically optimized in either a cabinet or frame construction, to meet customer needs.

Your advantage: high system availability, because we apply the highest production and quality standards. Due to their compact design, the maintenance-friendly cooling units can be well adapted to suit our customers' concepts.

We offer worldwide commissioning, outstanding dependability, proven flexibility and years of experience in designing re-cooling systems.

Capacity: 2 x 2.100 kW

Capacity: 4 x 5.000 kW

Capacity: 5 x 130 kW

Capacity: 4 x 2.900 kW

Capacity: 8 x 3.400 kW
